

Introducing the Celtic Rainforest

Watch the video about the Celtic Rainforest and the Celtic Rainforest Project

Why not listen carefully so you can fill the gaps below?

You will need to watch the video that is available here:

<https://youtu.be/puougqEWIJM>

or here:

<https://celticrainforests.wales/education>

Choose the correct answers from the box below to fill the gaps.

1. Celtic Rainforests are found in **West Wales**
2. They are found here as there is so much **rain**
3. There are over **200** types of insects living on one big oak tree.
4. Small organisms like **fungi, moss** and **lichen** live here.
5. Two birds that live in the Celtic Rainforest are the **woodpecker** and the **redstart**.

West Wales / East Wales / Africa rain / people / fish

2 / 20 / 200 banana / lettuce/ fungi / moss / lichen / spiders

woodpecker / parrot / redstart / budgie
